

1 anticipate good things for his income.

2 THE COURT: My concern is that once the term of  
3 incarceration is over with, I want to add that we will reexamine  
4 the percentage of the payout of the combined income so that there  
5 -- we look at what his situation is, because it is hard to predict,  
6 and we really need to have more facts before we come up with a  
7 plan. But the goal of the Court is that I want Mr. Bell at the end  
8 of the term of supervised release to have this behind him  
9 completely and he can say, "I stepped up to the plate, I did my  
10 time and I paid what I did, and I can demonstrate to society that I  
11 am a responsible adult and that you can count on me."

12 MR. HARRIS: In all honesty, Judge, that is exactly what  
13 he is thinking.

14 THE COURT: So I want to make sure that we can give him a  
15 gold star 'at-a-boy, and that -- I'm trying to recollect, but my  
16 usual plan to encourage exemplary performance on the term of  
17 supervised release is to provide an incentive to a defendant if at  
18 the end of two years they have been just outstanding, and all of  
19 the fines are paid, that I will entertain a motion for early  
20 termination.

21 Did I do that? I don't see it --

22 MR. HARRIS: I don't think you said that. But we  
23 wouldn't be against that happening.

24 THE COURT: You would be against it?

25 MR. HARRIS: I would not be.
